### SHERWOOD | Center Table

The chic walnut root table top and the elegant wood structure of SHERWOOD Coffee Table make it ideal for a mid century modern decor. SHERWOOD does not hide its origins, instead they are embraced and shared. This rectangular coffee table will be the attention catcher in the living room set.

### BRYCE | SIDE TABLE

The wholes in BRYCE side table depict the stream erosion created by the river and lake bed sedimentary rocks, shaping a surface of golden leaf – with rich reflections - on a clean polished black lacquered body. BRYCE stands strong by a sofa or an armchair where you can put a book, a cup of tea or your favourite table lamp, complementing your ideal living room.

### LURAY | SIDE TABLE

The cold of the casted brass combined with the bronze glass gives the natural feeling of the caverns environment, where you can find the contrast of the warm colours and the winter touch. The palisander wood veneer in the lower top is what brings the surroundings intensity to this delicate and unique side table, a perfect complement to any space.
